Interests Travel behaviour and discrete choice modelling; air-pollution and heat exposure in daily travel; information, electric mobility and decision support; machine learning and behaviourally grounded AI for transportation; safety in heterogeneous traffic; transport policy.

Record 9 journal articles, 7 manuscripts under review, 17 refereed conference papers and 1 published patent. Google Scholar: 200+ citations, h-index 6 (August 2026). Reviewer for 8 journals.

APPOINTMENTS

2026– **Postdoctoral Researcher** Los Angeles, CA
HUMAN Lab, University of California, Los Angeles
With Prof. Youngseo Kim. Structured discrete choice estimation (PD-MUSE, under review at *Transportation Research Part C*); heat, exposure and daily activity and travel (HEAT).

2024 **Visiting Research Fellow** Leeds, UK
Institute for Transport Studies, University of Leeds
International Research Exchange, jointly funded by the University of Leeds and IIT Kharagpur.

2021–2022 **Research Intern, Electric Mobility** Remote
WRI India
Inhaled-dose comparison for commuters across electric and internal-combustion fleets; recommendations for electric mobility in tier-2 cities.

EDUCATION

2022–2026 **Ph.D., Transportation Engineering** Kharagpur, India
Indian Institute of Technology Kharagpur
RCG School of Infrastructure Design and Management. Advisor: Prof. Arkopal Kishore Goswami. Thesis: *Assessing impacts of perceived air pollution exposure on urban travel behaviour*.

2019–2021 **M.Tech, Transportation Engineering** Roorkee, India
Indian Institute of Technology Roorkee
Advisor: Prof. Amit Agarwal. Thesis: *Air quality perception of commuters in Delhi*.

2015–2019 **B.Tech (Honours), Civil Engineering** Kota, India
Rajasthan Technical University
Top 5% of class.

PUBLICATIONS

Journal articles

J9 **Meena, K. K.**, Goswami, A. K. (2026). Not all travellers think alike: Segmenting travel behaviour under air pollution exposure using a hybrid latent class and discrete choice approach. *Transportation Research Record*. Accepted. [doi:10.1177/03611981261429472](https://doi.org/10.1177/03611981261429472)

Patent

- P1 **Meena, K. K.**, Goswami, A. K. (2026). Personalised dynamic route planning system for sustainable urban mobility. *Indian Patent Application No. 202631018379*. Published 31 July 2026.

AWARDS, FELLOWSHIPS AND GRANTS

2026	Institute Travel Grant (full funding), TRB Annual Meeting, IIT Kharagpur
2024	International Research Exchange Grant, University of Leeds and IIT Kharagpur
2024	Institute Travel Grant (partial funding), IATBR, Vienna, IIT Kharagpur
2024	Best Presentation Award, Research Scholar Day, RCGSIDM, IIT Kharagpur
2023	Best Poster Presentation, Cyber-Physical Systems Summit (CyPhySS), IISc Bengaluru
2019–2026	MHRD Fellowship, Ministry of Education, Government of India
2019	GATE Civil Engineering, All India Rank 559
	Regional winner, National Children's Science Congress, Department of Science & Technology, Government of India

INVITED TALKS

2025	DRUM: pollution-aware dynamic routing for urban mobility. Google India.
2022	Transportation data analysis using real-world mobility data. NIT Calicut.
2022	Data visualisation and decision support using Tableau. Swastik Edustart.
2020	Quality control and performance evaluation of road infrastructure. IIT Roorkee.
2019	Practical aspects of concrete mix design and quality assurance. Wonder Cement Ltd.

TEACHING

Interests	Core courses in transportation engineering, traffic engineering and transportation planning; electives in travel demand and discrete choice analysis, transportation data analytics and machine learning, and transport, environment and health.
2019–2025	Teaching Assistant, IIT Kharagpur and IIT Roorkee: Multimodal Urban Transport (NPTEL); Intersection Design (CEN 662); Engineering Drawing (CE13001). Laboratory sessions, simulation tools and geospatial analysis.

MEDIA COVERAGE

Jun 2025	<i>The Hindu</i> , “New app helps commuters pick ‘greener’ routes on road,” by Ashmita Gupta, 8 June 2025. Feature on the DRUM routing app. Online .
----------	--

PROFESSIONAL SERVICE

Reviewer	<i>Transport Policy</i> ; <i>Transportation Research Part A: Policy and Practice</i> ; <i>Transportation Research Record</i> ; <i>Travel Behaviour and Society</i> ; <i>Journal of Transport & Health</i> ; <i>Research in Transportation Business & Management</i> ; <i>Expert Systems with Applications</i> ; <i>PLOS Climate</i>
2025	Technical Session Chair, EASTS Conference, Jakarta
2023, 2024	Overall Coordinator, Annual Conference on Infrastructure (IBSR), IIT Kharagpur
2022–2023	Departmental Social Media Head, IIT Kharagpur
2020–2021	Placement Representative, IIT Roorkee
Member	ASCE Transportation & Development Institute; Transportation Research Group of India; World Conference on Transport Research Society; International Association for Travel Behaviour Research

RESEARCH SOFTWARE

DRUM	Dynamic Routing for Urban Mobility : pollution-aware route planning for commuters. React, Python, GraphHopper. Basis of J8 and P1.
Survey	Stated-preference survey platform : adaptive choice experiments with live response analysis. React, Node.js, MongoDB.
PM _{2.5}	Next-day PM_{2.5} forecasting : machine-learning forecasts with a global viewer. Python, scikit-learn.
AQI	India air-quality dashboard : city-level analysis of real-time air quality. Streamlit, Plotly.
Mode share	Cycling and motorcycle mode-share dashboard : mode share in cities worldwide, with prediction. JavaScript.
Districts	Bharat Districts Explorer : district-level demographic and spatial data for India. D3.js.

METHODS AND TOOLS

Modelling	Discrete choice (hybrid latent class, ICLV, mixed logit, nested and inverse product-differentiation logit); panel econometrics; stated-preference design; willingness-to-pay estimation; MCDM
Learning	Deep learning; interpretable machine learning; geostatistics and kriging; LSTM and Prophet; computer vision for the built environment; convex optimisation
Software	Python, R, JavaScript, React, Node.js, SQL, MongoDB, Git, LaTeX; NLOGIT, SPSS, VISSIM, QGIS, Tableau, D3.js
Fieldwork	Low-cost sensor deployment; on-road exposure measurement by travel mode; two-wave panel survey administration
